

Policy Title: LEAVES

Introduction

The purpose of this policy is to outline the different leave options available for eligible employees to help them navigate through a variety of personal and professional circumstances.

Dependent Care Leave

An employee may be granted an unpaid leave of absence of up to one (1) full year for the purpose of rearing his/her child, or attempting to officially qualify for adoption, or caring for his/her child, spouse or parent who has a serious health condition. Employees on dependent care leave shall be permitted to make their own and the College's contribution to all benefits requiring contributions via a monthly electronic funds transfer from the employee's bank or credit union. Upon return to work payroll deductions will resume. Only one (1) member of a family employed by the College (e.g. spouses, sisters/brothers) may take a dependent care leave during any one time.

Family and Medical Leave Act (FMLA)

In compliance with the Federal Family and Medical Leave Act and applicable state laws, Fox Valley Technical College will grant Family and Medical Leave in certain circumstances.

Military Leave

Employees shall be granted an unpaid leave of absence for a tour of military duty, reserve training, National Guard duty, or other qualifying military-related activities according to the rights and limitations of Wisconsin Statute 45.50 and other applicable laws. The request shall be submitted to Human Resources – Benefits.

Such leave shall be subject to the following benefits:

A. Health and Dental Insurance Continuation

The employee's health and/or dental insurance plans in effect at the time of the military leave shall be continued at FVTC's expense through the end of the month in which the employee's last day of work occurs.

During the following first six months, the employee's dependents will remain with the FVTC group plan(s) at FVTC's expense. If the leave continues beyond six months, the employee will be offered the opportunity to continue existing coverage under COBRA terms and provisions for an additional 18 months. Therefore, employees and dependents shall be eligible to continue group health/dental coverage for a period not to exceed 24 months upon payment of premiums on a timely basis after the College's obligations are completed.

Upon timely return to active employment, the employee shall be restored to the group plan without penalty. Participation in the group plan during military leave is not required for readmission into the plan upon return to work.

B. Long-Term Disability Insurance

Group long-term disability insurance will be canceled effective the employee's last day of work. Employees are ineligible to collect disability benefits if the disability occurs during the leave of absence. Upon timely return to active employment, the employee shall be restored to the group plan without penalty.

C. Life Insurance

Group life insurance will be canceled effective the employee's last day of work. The current FVTC life insurance plan contains an exclusion for active military service. Upon timely return to active employment, the employee shall be restored to the group plan without penalty.

Occupational Leave

Occupational leave shall be granted to update work experience in the employee's major area of preparation and in line with his or her teaching assignment or to those employees whose career development will be enhanced by outside occupational experience.

Employees are eligible for occupational leave after five (5) years of continuous full-time employment at the College and only one occupational leave may be granted for each five (5) years of continuous, full-time employment. The number of employees who can be on an occupational leave at any given time is determined by Administration, and the duration of any leave will be up to one (1) year. Requests for occupational leave shall be made at least three (3) months in advance, in writing, including an employer-offering placement for the employee and a detailed occupational leave plan. Requests should be submitted to the immediate manager who shall review and then forward to the Vice President for Instructional Services.

In granting occupational leaves, the criteria considered will include:

- needs of the College
- value to the College and employee
- reasonable distribution of applicants within the College
- merit of the leave request
- previous leaves, if any
- agreement on post-occupational leave compensation

All occupational leaves must be approved by the President, at the recommendation of a review team comprised of the employee's manager, the Vice President for Instructional Services, and a Human Resources representative.

The salary for an applicant on occupational leave shall be 50% of the employee's contract or annualized salary based upon the actual contract or annualized salary of the year of the occupational leave or a proration for the period of occupational leave if less than one (1) year.

Payment shall be made to the applicant in accordance with payroll procedures as they apply to employees. An employee on occupational leave shall retain membership in the retirement system, retain insurance benefits, and accrue sick leave as other employees.

The individual on occupational leave may accept grants or a salary from the employer while on leave; however, the employee's FVTC salary will be adjusted if the amount exceeds 100% of the annual contract or annualized salary in the year in which the leave is taken. The employee is required to report to the College the amount of additional income received from grants or salary.

The employee shall send his/her manager within thirty (30) days of the beginning of the sabbatical leave a written initial report of the occupational leave and shall thereafter inform the manager in writing of his or her continuance of the leave every two months. At the conclusion of the occupational leave, the employee shall submit a final written report of 300-500 words and any products created during the leave period.

The employee accepting payment for occupational leave is obligated to return to the service of the College for at least four times the occupational leave granted or up to two years, whichever is less. The employee is obligated to return the full amount of compensation received if the reporting and post-occupational leave employment requirement conditions are not fulfilled. Failure to return according to agreement will be considered a voluntary termination, unless the parties have agreed to an extension or is due to an illness or disability.

If an employee on occupational leave is not fulfilling the purpose for which the leave of absence was granted, the President may terminate the occupational leave after giving the employee an opportunity to be heard.

In most cases, an employee returning from occupational leave will return to the same position. However, the College reserves the right to reassign the employee to a position within his or her field and is not obligated to return the employee to his or her original assignment.

Sabbatical Leave

Sabbatical leave shall be granted for the purposes of enhancing teaching, course and curriculum, professional development, conducting research, or any other scholarly activities related to the employee's field of expertise or completion of a degree related to the employee's current work/teaching assignment.
